

CUSTOM REPORTS

THE 2012 CAMPUS COMPUTING SURVEY

The Campus Computing Project is pleased to announce the availability of special institutional comparison reports based on the data collected as part of the 2012 Campus Computing Survey. The custom analysis/group comparison reports provide additional and more precise campus comparisons for institutions and consortia that need more focused details or special reference group comparisons that go beyond the aggregated institutional summary data that appear in the annual Campus Computing reports.

Campuses and consortia can order special analyses that include self-selected peer groups, Carnegie Type comparisons (for example, Doctoral Extensive Universities, Masters II Institutions), regional clusters of institutions (public doctoral institutions in the Southeast; liberal arts colleges in the Midwest; community colleges that enroll between 5,000-10,000 students), or summary data for regional or national consortia.

In past years two- and four-year colleges and universities have ordered these custom reports to assist with strategic and IT planning, to prepare materials for accreditation and trustee reports, and as background documents for other kinds of IT planning and policy activities and initiatives.

The reports are delivered electronically as Excel files. (Please see the sample report format on the back side of this page.) Price: \$450.00

For additional information about special comparison reports based on the 2012 Campus Computing Survey data, please contact:
